exhibitions

come for the experience

Our production studio for exhibition and display materials is housed in a unique building, a converted Mission Hall in Worthing, West Sussex. Its a dramatic space that provides a really practical work area as well as an interesting venue in which to welcome our clients. It certainly inspires us to do good work!

We hesitate to sing our own praises, but during the twelve years that we have been in the business, we have evaluated just about every display system on the market, and are pleased to be able to use this in-depth experience for the benefit of our clients.

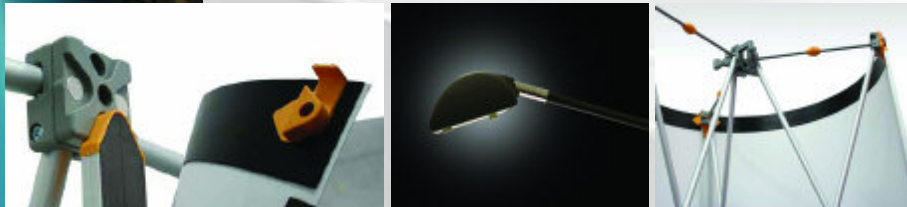

We have learned that it isn't always a simple case of 'you get what you pay for' - the most expensive products you can find aren't necessarily the best value in the longer term. In this brochure we have put together a selection of products that we really believe in. These are the systems that we have tested and trust, and that we can now confidently recommend for designers and clients who need good looking, durable, reliable and affordable solutions.

Talk to Stephen Miller about your visions on 01903 200 301 or email studio@subwayexhibitions.com. We think you will be converted.

second to none
in quality and design

Evolution Xpress

This fully magnetic system, with silver anodised aluminium frame and saffron components is stylish and very simple to use. The self-locating magnetic hangers make it the simplest pop-up to assemble. Available as frame only, graphic hanging kit or fabric panel kit with the option for graphics to be displayed on both sides. All the front curve/D-end panels are the same size and the D-End graphic panels also fit the Xpress Tower providing extra versatility.

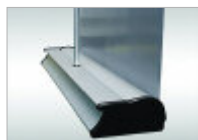

Code EK302XC
3x3 curved including premium graphics, Elipse case and lights

The Banner Collection

This selection of tension, roller and cassette banners offers style and quality at affordable prices.

We supply them regularly because they are easy to use, the graphics can be updated when needed and they come complete with a carry bag. Over the years they have been proven to be the best on the market.

Imagine Cassette Banner

A strong, lightweight roller banner with removable cassettes and built-in pole storage. The quick-change graphic cassettes have a built-in tensioning system. Available in black, silver or anodised silver, it weighs only 4.5kg. The visible graphic area is 2185 x 800mm.

Code UB502

Subway Banner

This is a great, simple design in anodised silver, with a robust casing that provides cost effective quality. Perfect for those clients who need impact, but on a tight budget.

The weight is just 4.5kg and the visible graphic area is 2000 x 845mm.

Code SUB64

Excaliber Roller Banner

A popular and versatile banner ideal for exhibition or showroom graphics. Slightly heavier at 6.45kg, but has a wide foot for extra stability, and can be either single or double sided.

The visible graphic area is 2145 x 800mm and available in a black, silver or anodised silver finish.

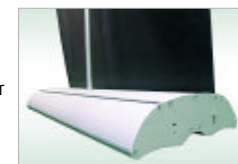

Code WH301

Barracuda Roller Banner

A very popular, strong but stylish banner, ideal for simple displays or exhibitions. In black, silver or anodised silver, and weighing just 4.3kg it has a 2145 x 800mm visible graphic area.

Code WH321

Uno Tension Banner

This is a simple yet effective design, available in a wide variety of widths, with a telescopic stand that makes it height adjustable. Ideal for roadshows when you don't know exactly how much space you will have - you can even use it as a table top display.

The standard visible graphic area is 2200 x 800mm. It comes in black or silver and weighs 4.5kg.

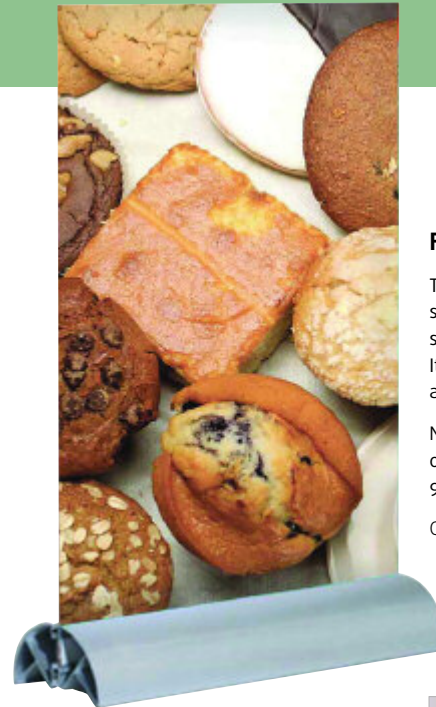

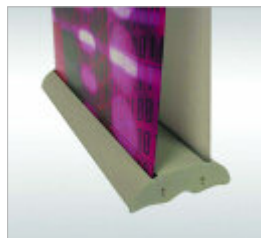

Code UB101

Excaliber 2 Banner

The Excaliber has a wide foot for extra stability, and the graphic strips slide in and out very easily.

Comes in black, silver or anodised silver. Double sided, so slightly heavier at 6.45kg, and each side has a 2200 x 800mm visible area.

Code WH311

Fantasy

The Fantasy has a really neat curved profile and is designed to support rigid substrates including glass, wood, plastic or MDF, so is ideal for the more permanent indoor or outdoor display. It can take a single 10mm thick substrate or you can sandwich a graphic between two sheets of acrylic.

Non-slip, robust and simple to use, with a visible graphic area of 1800 mm x 300-1500 mm approx. The base dimensions are 95 (h) x 800 (w) x 201 mm (d) approx.

Code UB250

Advance 1 and 2

This system is available as either single or double sided and features removable cassettes that are very easy to use, requiring no assembly tools.

Spare cassettes are available, so this works well if you need a quick change system. It's strong and versatile and the twin version needs no extra parts to support the graphics. Available in black, silver powdercoated or silver anodised.

Code UB503

Double sided Code UB513

Easy change cassettes

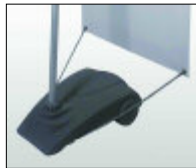

The Outdoor Collection

Outdoor display stands need to be robust and durable. These ones are specifically designed for outdoor promotions but are also useful for interior applications in high traffic areas, such as exhibitions and shopping centres.

Storm

This stand lives up to its name. The blow moulded polyethylene base can be water or sand weighted for total stability. It is weather resistant and fully adjustable, with a single graphic supported on a simple eyelet system. The visible graphic area can be up to 2100 mm(h) x 800 mm(w).

Code UB201

Whirlwind

The whirlwind is another tough product. A heavy-duty, weather resistant outdoor swing sign, ideal for pavement advertising and retail promotions.

The double-sided snap frame takes an A1 size, with a PVC cover to protect the poster. A spring pivot system provides the swing motion and the compact moulded base is water or sand weighted for excellent stability.

Its wheeled to make it easy to put away at the end of the day and flat-packs for easy transportation.

Code UB207

Monsoon

When you need a larger display area, the Monsoon is a good choice. The large format 'A' frame is made from lightweight aluminium, ideal for use with PVC eyelet banners.

Natural finish 25mm square aluminium tubes have reinforced, plastic, flush fit joints and the push-fit assembly means that no tools are necessary. The 840 mm x 2340 mm graphic is secured with adjustable looped elastics and the stand is supplied complete with guide pegs.

Code UB706

A Sign Board

This easy-to-handle front loading, snap frame system has loads of applications, and is a popular favourite with our clients.

Perfect for outdoor or indoor use, it is robust, sturdy and adaptable. The no-nonsense design takes A1 size.

Code VF204

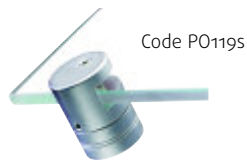

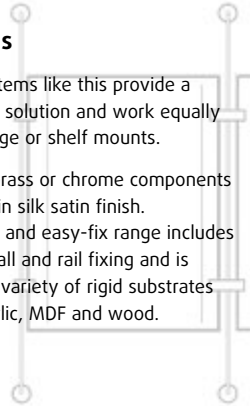

Wall fixings

Stand-off systems like this provide a really elegant solution and work equally well for signage or shelf mounts.

High quality brass or chrome components are available in silk satin finish. Our attractive and easy-fix range includes options for wall and rail fixing and is suitable for a variety of rigid substrates including acrylic, MDF and wood.

Code PO119s

Code PO101

Code PO102

Code PO109

Reflecta D

A high impact, CE approved lightbox display solution with great impact - just add your own graphics.

The D shaped profile lightbox has a quality aluminium frame construction and is available in A1, A2 and A3 sizes. Snap frame sides enable easy change of graphics. It can be wall fixed in either portrait or landscape and has UPVC protective covers.

Code ML901 (A1)

Code ML902 (A2)

Code ML903 (A3)

Poster Displays

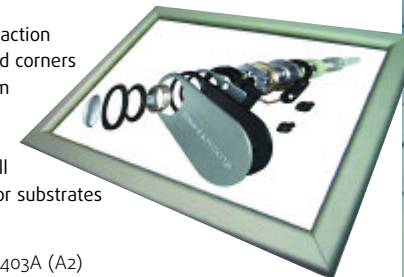

We have a fabulous range of user-friendly freestanding and desktop poster frames. Great for directional signs, menus and a host of other materials, the magnetic scratch resistant screen lifts away for easy positioning of graphics, then holds the display material securely in place. Freestanding units have a heavy base for additional stability.

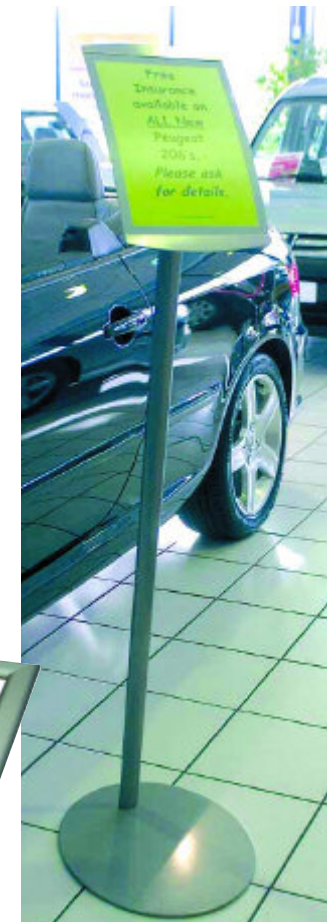

Code CN115P (A5) Code CN114P (A4) Code CN113P (A3)

Snap Frames

These popular, simple snap action poster frames have moulded corners in black or grey, with custom colours available to order. Aluminium, with anodised silver finish they can be wall mounted and are suitable for substrates up to 1mm thick.

Code AT404A (A1) Code AT403A (A2)

Podiums are ideal to finish off your exhibition stand, giving a professional image with the added benefit of hidden storage. They come in a variety of colours and can be wrapped with a printed graphic. They come as flat-pack and are easy to assemble.

Curved
Code PK160

Eclipse
Code PK152

Titan

This heavy duty, double sided stand has 8 pockets for A4 literature. The robust and stylish design is perfect for permanent or semi-permanent display. In black or silver powdercoated finish, it breaks down for easy transportation and storage.

Code AS224

Zed 6

The Zed 6 is a one piece literature stand, and a cost effective unit with 6 very accessible pockets to take up to A4 size. Finished in silver powdercoated.

Code AS202

6 Panel Kit

A flexible, quick assembly exhibition system that is complete with header panel and weighs less than 6 kgs.

Available in a range of sizes including 900 mm x 600 mm and 1000 mm x 700mm

Code KK117

Senior Kit

A great compact presenter unit. 900mm x 600mm, with a header and folds down into it's own carry bag.

Code KK103

7 Panel Kit Baseline

This seven panel folding system includes a header panel and a useful triangular tabletop that provides opportunity for a dramatic 3D element to the display.

Codes KK114

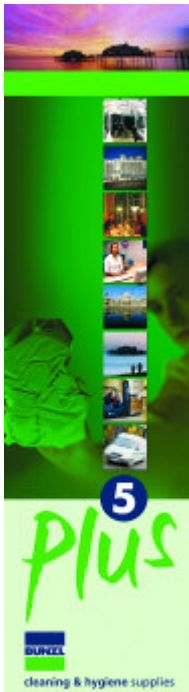

The traditional PVC banner has taken on a new lease of life now that high quality and detailed images can be reliably printed onto this durable material. Our custom vinyl banners and vinyl signs are created by printing a photographic image directly onto premium vinyl using a high-end 1.6m Mimaki JV3 solvent-based inkjet printer, making them ideal for indoor or outdoor usage.

All our vinyl banners and full colour advertising banners are ideal for outdoor uses such as sporting events, concerts, road shows, exhibitions and promotional signs. Indoors they can also be useful for seminar events and conferences.

Our vinyl banners are cost effective and reusable - an ideal way to help promote or advertise your client's organisation or their products.

They are affordable enough to help celebrate a special occasion such as a birthday, party banners or promote Christmas menus. As experienced banner printers we employ the latest technology to bring you a very high quality product.

Banners can be printed up to 1500mm wide. This example was printed for an exhibition at the Grand Hotel in Brighton and was over 5 metres high.

MDF Block Mounts

Interior artworks can bring to life any home or commercial space. Try block mounted prints with painted or realwood edging. We also print to canvas with a box edged frame, at sizes up to 1500mm wide.

There are many substrates that offer creative finishes and solutions for interior designers. Call or pop in to see our range of materials.

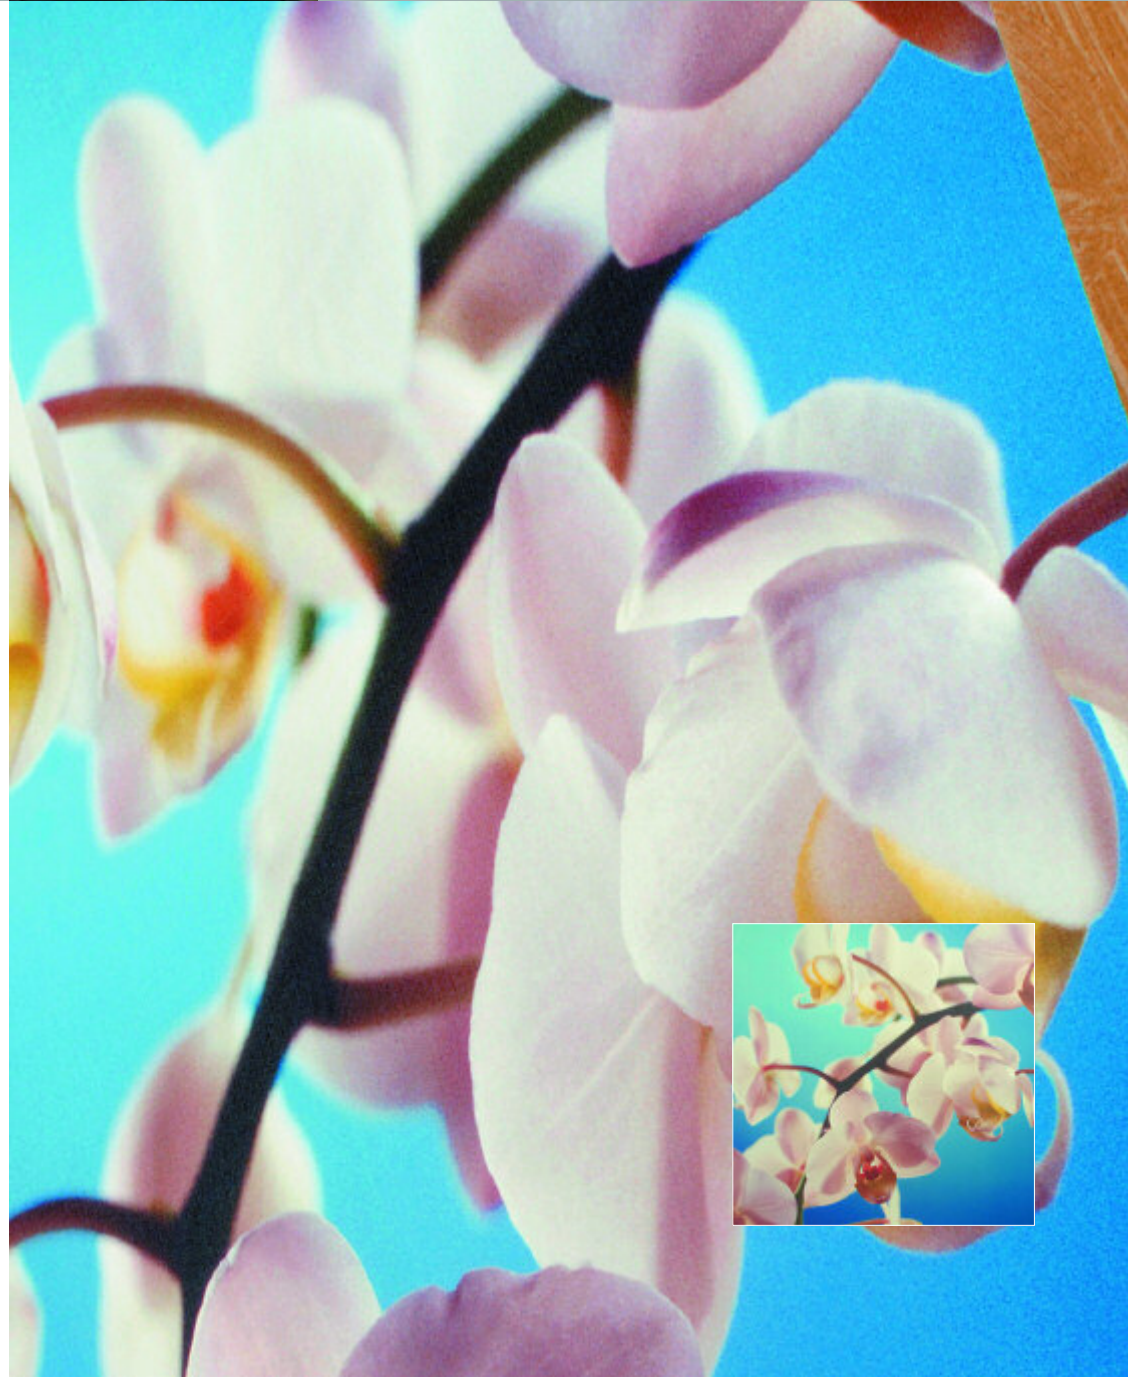

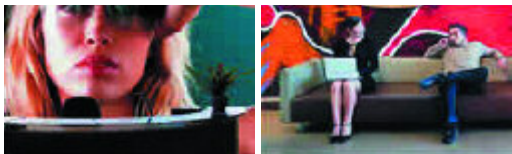

Digital wallcoverings

Fabric-backed, digitally printed wallcovering is set to revolutionise the marketplace when it comes to dressing public and commercial spaces. The possibilities are endless and the creative potential will excite the imagination of architects, interior designers, marketing and brand professionals. From cafés, bars and restaurants to high-street retail stores, hotels, hospitals, large corporations and museums ... the marketing and creative possibilities with Digimura are as wide as they are varied.

The wallcovering has an approved fire-rating even when printed, so is perfect for locations such as:

- corporate branding
- private boxes at sports stadia
- company reception halls and meeting rooms
- interior promotional walls
- cinema and theatre foyers
- promotional panels in retail outlets
- exhibition walls for trade shows
- ambient interiors in cafés and restaurants
- hospital or doctor's waiting rooms
- crèches, nursery schools, daycare centers
- sports club reception halls
- museum and gallery foyers
- car showrooms and sales' centers
- reception areas in health clubs, clinics and spas ...

The list could go on, but think public or commercial space, think bespoke imagery, and easy-to-apply and take down personalised digital images, then come and talk to us about what you have in mind.
